- Foundation Course (6 months):
C & Python Programming
- Flutter Mobile Programming (6 months): UI/UX, REST API, Firebase, State Management

2024 - 2025

SKILLS

- Dart
- Flutter
- Riverpod
- BLoC
- Cubit
- MySQL
- SharedPreferences
- Hive
- Isar
- Yandex mapkit
- Google map
- Firebase (Authentication, Firestore)
- Http
- Dio

LANGUAGES

- Uzbek - native
- English (B2)

SUMMARY

Motivated Flutter Developer with strong problem-solving skills and a passion for building smooth, visually engaging mobile apps. Quick to adapt to new technologies, with a focus on delivering great user experiences through animations. Strong team player with excellent communication skills, open to feedback, and always reliable in meeting deadlines on time.

WORK EXPERIENCE

AI Gemini

June 2025

Technologies: Flutter, Riverpod, Gemini API, STT, TTS

Architecture: Layered architecture (Clean-inspired modular design)

- Login/Register with form validation via AppRouter
- User voice using `speech_to_text`
- AI responses are read aloud using `text-to-speech` (TTS)
- Riverpod for state management

Elaro

Jul 2025 – Aug 2025

Technologies: Flutter, Dio, BLoC, Clean Architecture, Secure storage

- Implemented BLoC pattern with Freezed for structured event-state management and predictable data flow.
- Integrated REST APIs using Dio with robust error handling.
- Applied dependency injection with GetIt for better code maintainability.
- Designed dynamic UI with Carousel Slider, Cached Network Image, and Custom Slivers for responsive layouts.
